OUR STORY

OUR STORY

Estonians are used to think several steps ahead. So, 15 years ago, waiting for our daughter's birth my wife Kadri and I started to plan and design our own backyard playground. But the selection of homemade playgrounds was almost nonexistent. As a parent you do everything for your child, so I obtained the necessary tools and materials and made a start!

I consulted my wife, called in my friend for assistance and together we got into such a swing that instead of one planned attraction we made two. Then we took the spare one to a fair where our homespun product immediately found a new owner. Besides this, we were lavished with praise and people were much interested in finding out the place where such products could be bought. By the end of the day, we had decided to start the production! Tiptaptap was born.

SAFETY IS OUR PRIORITY

By the day our little daughter got on her feet, the company founded by her parents already stood on its own feet. Tiptaptap has grown in parallel with Marii's and her younger brother Rasmus jr's growth and both children are the sources of inspiration and experimenters of the family business products.

As safety is our priority I started the business by familiarising myself with the subject of playground safety and standards. All the Tiptaptap products are safe for children and meet the safety requirements. This is top priority for me as the head of the family and as the chief executive officer of the company.

TESTED IN FOUR SEASONS

Today Tiptaptap mainly exports its products to Europe but also to Asia, Africa and the Arab countries. The constantly expanding product series allows us to offer suitable attractions to the countries of different climate and culture. As we like to say, our products are tested in four seasons, because in Estonia we have windy springs, sunny summers, rainy autumns and snowy winters.

Estonian children also know the Tiptaptap playgrounds well as Tiptaptap is the signpost and market leader in our home country. It has been brought up with such care and love as if it were our own child. This is our success formula.

Rasmus Varunov
CEO of Tiptaptap

OCTO

OCTO

OCTO

Are those constructions skyscrapers, towering proudly skywards? Or alluring city lights, which promise exciting adventures? No, not at all. They are the noteworthy OCTO series products of special design, providing older children and teenagers with challenging experience.

The series has taken its name from the novel octagonal powder coated aluminium posts, which due to their solid grey colour are well suited even for the most modern environment. The acryl glass panels only deepen the impression of glass furnished tall buildings. In reality, it all has to do with durable glass panels of the type known from hockey fields.

The OCTO series reminds us of a big city where a person considers himself to be able to succeed! Who is the coolest, who is the fastest? Who will be a leader, who dares to take risks? Young people do not doubt themselves a bit, they just come and experience, create and conquer. The products are intended to provide older children wishing to test themselves with developing activity and physical effort. The products of the series enable to test one's endurance, coordination, balance and also courage. At the same time, the attractions ensure safe recreation and joy of playing.

The product selection of the series of novel design is constantly widening. It is possible to select big and powerful megacomplexes, different climbing frames, spinners, shakers, swing constructions etc. So it will be possible to create a suitable playground in different environments, bringing young people together, providing them with activity proper for their age, physical effort and joy of each small win. A great new meeting place was born? Why not!

URBAN

URBAN

URBAN

The desire to create is hidden in each person's nature. To aim at something and to prove oneself. To show that the goals are achievable. Overcoming all the obstacles and moving boundaries. We are sure of ourselves because we are young. And it's just us the prosperous future belongs to.

The new product line URBAN impresses with its powerful appearance. One gets the feeling of confronting something powerful and eternal. Indeed, the concrete-like heavy looking material is vandal-proof and extremely durable. You will be convinced immediately after setting a challenge to try yourself. The different labyrinths assembled from modules make one feel welcome and able to surmount obstacles. Come and demonstrate your skill!

The urban product line offers everything searched and expected by young people. They can demonstrate their strength and skill, quickness and invention, spirit and creativity. Grey colour tones refer to graffiti. Is this we are expecting? The modern urbanist design addresses both the admirers of modern architecture and the wildest artistic souls.

The attractions of the URBAN product line are easily installable. Powerful appearance hides high quality materials which combined with reinforced concrete and metal secure the best durability. Be the cities small or large – wherever there is URBAN, there are the young.

AMAZON

AMAZON

AMAZON

This product range inspired by the ornaments of nature people allows the children to embody brave little monkeys who fearlessly tackle new challenges. The Amazon adventure track develops the sense of balance and rhythm in children, enhances their stamina, and generates pure joy every time they manage to exceed their limits.

This range based on the folklore and ornaments of nature people fits both urban and rural environments adding value to every park and yard. Safe and durable climbing nets, walls and ladders as well as swings, slide tunnels and channels invite small adventurers to test themselves. An adventure track tailored to the specific surroundings can be assembled from the different products in the Amazon range according to the customer's request.

Amazon is suitable from the age of 4, but it can offer a multitude of activities to much older children as well.

Materials and installation: The Amazon range is made of durable laminated timber and it has been awarded the relevant quality certificates. Posts of laminated timber decorated with different ornaments are joined together using the innovative mortise joint. The cross-section of the posts is 100mm x 236mm and the nets between them are made of extremely durable 16mm steel rope designed for climbing which is coated with polyester and features plastic joints. The climbing wall with climbing rocks is made of waterproof birch plywood. The products are concreted to the ground using metal fittings. For the purpose of safety, it is recommended to use sand or rubber mats beneath the playground facilities.

WATER WORLD

WATER
WORLD

WATER WORLD

This product range features a colourful and exciting underwater world. Just like the water world lures you with its mystery and beauty, these products invite children to undertake exciting exploration trips and test themselves by tackling these new challenges. The underwater world is extremely diverse and the same kind of diversity is provided by the Water World range.

The sense of balance and three-dimensional movement characteristic to fish have given us ideas how to develop the sense of balance in children. The underwater life surrounding the coral reefs inspired us to create the same kind of attractive product range which no playful kid could resist!

Climbing nets, walls, ladders and tracks of various level of difficulty are in bright colours and invite small adventurers to discover themselves through play. The range displays colourful fish and other aquatic creatures which make the products look lively and boost the children's fantasy!

Water World is suitable from the age of 4, but it can offer the joys of discovery and movement to much older children as well.

NEW! Water World series are now maintenance free (Maintenance free - MF)

Maintenance free products are made of aluminium posts, HDPE plastic panels and plastic covered platforms and stairs. Maintenance free products are super durable, weather- and vandal-proof, in vivid colours and have double warranty!

All Water World series products are maintenance-free (MF)

PIRATE WORLD

PIRATE
WORLD

PIRATE WORLD

Defying wind and storm, disregarding treacherous rocks and dangers, searching for major treasures – this is how some famous pirates who still inspire books or movies have secured their place in history. Our Pirate World range features those thrilling stories and allows every small daredevil to feel just like a fearless captain of a pirate ship!

The products in the Pirate World range consist of climbing nets, tracks, walls and ladders which develop stamina and sense of balance and where the small pirates boldly overcome all obstacles in their way. Racing down the slides, a true pirate captain defies winds and storms with the skull flag always proudly fluttering above his/her head! Playgrounds of various level of difficulty come in bright colours to support the concept of the Pirate World. Fearless pirate captains on our playgrounds always sail before the wind – you're welcome to step on board!

ZODIAC

ZODIAC

ZODIAC

The starry sky has always attracted people with its mystique and endless space. Just like astronomy answers our questions about the outer space and astrology instils belief in constellations, our new Zodiac range helps better understand the secrets of the universe.

Why do stars look so tiny? How does the Moon wax and wane? How big is outer space? What does the Ursa Major carry? Where do UFOs live? Does the time machine exist? What is my Zodiac sign? The children's questions never end, but seeking answers to these questions together is just as educational and exciting as the products in our Zodiac range.

The Zodiac range fuels their dreams and the same sparkle-eyed kid climbing on the net, racing down the slide or exploring the world through an illuminator just might be a future astronaut or astronomer.

ACTIVITY PANELS AND CLIMBING WALLS

To further add diversity to our products we created a wide series of activity panels which make the playgrounds even more fascinating for children. The development-oriented activity panels create playful situations to teach children to calculate, solve puzzles, learn shapes, learn to tell time etc. This trains their memory, logical thinking and attentiveness. Learning has never been so simple and fun!

The appropriate activity panel can be selected instead of the standard panel while ordering a new playground, alternatively it can be ordered for an existing playground to refresh it and make it more fascinating for children. Climbing walls can be replaced with activity walls - just as activity panels are an alternative to standard panels. Both options add further attraction to the playground!

Of what can you make tables, shelves, walls, houses, castles, fortresses, caves or even skyscrapers? The answer is our LABYROOM L-shaped panels are ingenious in their simplicity allowing the children to create a countless number of different rooms and solutions during play. LABYROOM is safe as it has no sharp corners or moving parts and the plastic coated plywood survives well both indoors and outdoors. The colour palette combines blue, red, green and yellow panels to create a lively and thrilling playground!

SANDBOXES

SANDBOXES

Sand has always fuelled the childrens creativity. There probably isn't anyone who hasn't built sand castles, baked sand cakes, dug holes and tunnels in the sand, etc. In our childhood, we all have spent countless hours in the sandbox and want our children to be able to do the same. Tiptiptap's sandboxes are made of durable laminated timber or pressure impregnated conifer logs to provide a safe and lasting play area for years. To boost the childrens creativity our product series includes optional corner plates, benches, tables, shelters and cabins

PLAY ELEMENTS

PLAY ELEMENTS

The 3D rubber animals on the playground are real eye-catchers - the exciting bright-coloured creatures draw you near like magnets! Children won't miss out a single opportunity because they can climb on the rubber animals which boost their fantasy and create a fun play environment. Who would not want to fly a ladybird, ride on the back of a huge dog, hug a dolphin or crawl inside a seashell? Small toddlers will be excited by this three-dimensional world into which the playground has turned thanks to the 3D rubber animals. Although the rubber animals are normally attached to the ground, they can be placed loosely meaning that the animals can be rearranged to create new and more exciting play areas.

A woman with her hair in a ponytail is smiling while using an outdoor exercise machine in a grassy park. She is wearing a white and grey striped tank top with a neon green waistband and black leggings. The machine is grey with black handles. The background is a bright, sunny day with green grass and some yellow flowers.

Juhised

Istuge toolil seljaga seadma poole ja hoidke käepidemeid mõlema käega. Tõugake jõuga aeglaselt ülespoole ja aeglaselt alla tagasi. Korrake liigutust.

Instructions

Sit on the chair with back towards the equipment and hold the handles with both hands. Push upward slowly with force and recover slowly. Repeat the process.

SKATEPARKS

TIPTIPTAP SKATEPARKS

With over 10 years of experience and over 100 different solutions - Tiptiptap is the right choice for you! Our skate parks have been developed in partnership with professional riders who know how to challenge their BMX, skateboards, scooters, inliners and more. All our skate park elements have been manufactured in accordance with the European safety standards EN 14974:2006/A1:2010 and certified by TÜV SÜD GmbH.

The product choice includes both steel and wooden frame elements, either with phenol coated waterproof plywood or "Skatelite" surface - all high quality and weather resistant. Our skateparks evolve in line with the requests and needs of our clients and we try to fulfil the wishes of even the most demanding customers. Creativity and flexibility are always a priority for us.

We are offering several types of base skatepark solutions:

Base/Base+

Steel series

Best Sellers

Halfpipes

B 105

B 100

B 110

B 103

B 120

This is the perfect solution, if you wish to add structures to the existing park or design your own layout. Our separate structures are available in several configurations: Base, Base+ and Steel but custom made solutions are also possible. The constructions are designed to be placed on any flat surface like concrete or asphalt. If you can't find the desired ramp from the list, simply contact us to get it custom made.

PLAZA SKATEPARKS

Plaza type skateparks is a new trend. They replicate elements of urban architecture and movables. These skateparks are focused on sliding and jumping, easy to use also by non-professionals. The elements are small but offer a lot of fun and can be used by different vehicles. Plaza series skateparks are made of high-quality waterproof plywood. Constructions are easy to assemble.
